

Tile Spacer

Precision Spacing for Professional Tiling

Professional Tile Spacing Solutions

Aston Building Supplies Tile Spacers are designed to help achieve consistent and accurate spacing between tiles during installation. They provide a practical solution for maintaining uniform joints, helping tilers achieve a clean, professional and well-aligned finish.

Manufactured for professional tiling applications, Aston Tile Spacers are suitable for use across a range of tiling projects. Their simple and practical design makes them an essential accessory for achieving consistent results throughout the installation process.

ASTON BUILDING SUPPLIES LTD
